THE SENATE ENDORSES WILSON'S SUBMARINE POLICY; PRES. PLEASED

GORE'S RESOLUTION AND AMENDMENT TABLED AMID WILDEST EXCITEMENT—MANY REPRESENTATIVES PRESENT AND GALLERIES PACKED.

(By International News Service.)

WASHINGTON, March 3.—The senate has endorced the president's submarine policy by today tabling the Gore resolution with an overwhelming vote of 68 to 14.

When denied the privilege of discussing his measure, Senator Gore offered an amendment stating that the sinking of merchant ships with Americans aboard would be sufficient cause for war between the United States and Germany. This, too, was tabled.

Gore Votes Against Own Resolution.

Then Senator Gore created a startling sensation by voting against his own resolution. The galleries were jammed to capacity when the senate met an hour early. Many members of the house crowded the back of the chamber.

The routine business was hurried through and then Senator Stone moved consideration of the Gore resolution. Senator James, of Kentucky, moved the resolution be tabled. At once Senator Gore clamored to be heard, but was told forcibly he could only offer an amendment, without discussing the resolution. Those who voted for the resolution were Senators Borah, Chamberlain, Clapp, Cummings, Fall, Gallinger, Browne, La Follette, Macumber, Norris, Orgeman, Sherman and Works.

Hot Debate on Submarine Question.

After Gore's resolution had been tabled, a general debate on the submarine question hotly began. Senator Jones, of Washington, declared the senate had settled nothing and he would continue the fight to keep Americans off of armed merchantmen of belligerent powers. Senator Reed, of Missouri, afterward attacked Senator Williams for his speech delivered yesterday.

ITALY TO STEER CLEAR OF WAR WITH GERMANY

(By International News Service.)

ROME, March 3.—A strong editorial published in the Italian Journal today announces that those who hope to see Italy declare war on Germany are doomed to disappointment. It is regarded in official circles as the answer of the government to intervention by the faction that is attempting the overthrow of the Salandra cabinet.

The ediorial further declares the military resources of the nation are already being taxed to the utmost to carry on the conflict with Austria and there can be absolutely nothing gained by war with a still more powerful and relentless foe.

PORTUGUESE FLAG HOISTED ON GERMAN SHIPS IN MORMUGAI, INDIA

(By International News Service.)

BOMBAY, March 3.—The Portuguese flag was today hoisted on all Teuton vessels at Mormugai, Portuguese India. Practically every one of the Gemran residents of that port are interned.

GERMANS AGAIN OPEN BATTLE WITH TERRIFIC DRIVE DURING NIGHT

KAISER'S TROOPS REPULSED AT ALL POINTS EXCEPT VILLAGE OF DOUAUMONT WHERE ADVANCE TRENCHES FALL WITH HEAVY LOSSES.

(By International News Service.)

PARIS, March 3.—Fighting with a fiendish fury, the Germans have launched another drive against the French positions north of Verdun, The Official Communique states the Teuton bombardmetn lasted throughout the night, the Kaiser's troops assaulting again and again in mass formation.

It is understood all the attacks were repulsed with artillery and machine gun fire except at the village of Douaumont, where the Germans, after repeated attempts, succeeded in penetrating the first line of trenches. The dead were left in great heaps under the rifles of the Allies.

Desperate fighting continues at Douaumont and General Joffre is personally commanding the French troops in one of the bloodiest battles of the war. The weaker German assaults at other points along the line were easily curbed.

FRENCH FORT MORANVILLE FALLS.

GENEVA, March 3.—A report is in circulation supposed to have originated from a German source that Fort Moranville, three miles east of Verdun, has been dismantled and rendered unhabitable by the big Teuton siege guns.

TWO ZEPPELINS DESTROYED.

AMSTERDAM, March 3.—Two German Zeppelins are reported to have been destroyed while engaged in military operations along the western front.

Good News for the Wife.

A local preacher who was in the habit of taking his wife with him to his preaching appointments, said on arrival at the chapel: "My dear, you go in there; you will be all right. I must go round to the vestry."

In the vestibule the wife was met by a kind-hearted steward, who, after giving her a hearty welcome and a brisk rub, conducted her to a comfortable seat. At the close of the service the same kind-hearted steward gave her a hearty shake of the hand, adding how pleased he would be to see her at the services each Sunday. Then, whispering, he said: "But tell you, we don't get a duffer like him in the pulpit every Sunday."—New York Journal.

She Spoilt It All.

An artist and his wife were entertaining some friends at tea in the studio. The host's picture, which had recently been "hung," was the topic of conversation. Said one lady: "Mr. Vandike, yours was the only picture I looked at in the exhibition." Vandike bowed and smiled delightedly. "Believe me, madam," he said. "I appreciate the honor." But she gave a little stare of perplexity. "Honor?" she said. "The others, you know, were so surrounded by the crowd."

"THE DRAGON" AT THE CRYSTAL TODAY

Messalla, impersonated by Marguerita Fischer, the embodiment of youth and innocence, lives in an old house in Washington Square with her father, who has been ruined financially and lost his wife through the lure of Fifth avenue, which he tells Messalla is a dragon lying in wait for victims. Messalla starts out to find the dragon, goes up the avenue, and her meetings with various people bring destruction and death to those who had wrought her father's ruin, although she is unconscious of the effect she is having on their lives. This story is shown in "The Dragon," the Equitable's big feature, which is coming to the Crystal theater, this afternoon.

Messalla escapes the wiles of the white slaver; she allows a discarded flame of a big merchant to take her place at a dinner to which she has been invited, and the merchant suffers at the hands of the discarded woman; a policeman's attention is attracted to her, and a man is killed by an automobile while he is looking at Messalla; at a lacemaker's, where she stops, a wealthy young woman is tempted to take some lace, because Messalla has admired it, is caught and jailed; there is a robbery affecting some papers, which have been taken and replaced by a bomb, and she gives the package to a woman, who turns out to be her father's lost wife, the house being destroyed after the woman and Messalla leave.

This is a reconciliation. All those injured were people who had injured her father, and the dragon has been slain by Messalla's youth and innocence.

"A PRINCE OF YESTERDAY" AT THE ARCADE THEATRE

One of the most popular and entertaining features to be shown in the city in some time will be seen at the Arcade today entitled "A Prince of Yesterday." The story follows:

The Prince of Ballanza is the young ruler of a principality of contented subjects. Since the prince is now twenty years of age, his councillors wish him to marry. A princess of a neighboring realm is suggested, but the prince will not consider a young woman whom he has never seen. Not even yet in love with love, the prince persuades his friend, and advisor, the Duke of Perrettino, to take him in search of adventure to foreign lands. The duke lays his plans to bring about the marriage on which the councillors have set their hearts. The prince in his travels, comes at last to the walls of the convent of Palladio. Gazing upon a casement, he sees framed there, the most beautiful young woman he has ever beheld in all his life.

The prince of Ballanza breaks a red rose from a bush and throws it to the divinity. He is further encouraged to see that she hides the flower next her heart. Little does the youth know that the lady is the princess of Cellini, the one whom his state councillors wish him to marry. The crafty duke persuades the convent gardener to take the young prince, who remains incognito, as his assistant. This brings him into he lady's presence. She does not spurn the admiration of the gardener's handsome assistant, since she does not know of her own high station in life.

Notes pass between the two. When at last the princess brings herself to confess that she loves him, he learns immediately after leaving the note at the accustomed hiding place, that she is a lady of high degree. At the same time the Mother Superior tells her that affairs of the state require her immediate presence at Cellini. Knowing something of royal customs, the princess recognizes sadly that she must give up the youth who has won her heart. Accordingly she leaves a second note for him, saying that they will never meet again, as she is going into a far country. The duke follows to Cellini with the prince. The lady has already refused the duke of Florence, who has asked her hand in marriage, and is overjoyed to find her friend of the convent garden has followed her to Cellini.

Willing to abjure her rank for love the princess listens to his story, still unconscious of the fact that he is the prince of Ballanza. Prompted by the duke, the prince elopes with the princess, and all ends happily.

"CARMAN" AT THE NEW DAYTONA TODAY

Geraldine Farrar, most famous of all women artists of today, will make her photo-dramatic debut in the Lasky Feature Play Company's production, "Carmen," produced by Cecil B. DeMille. Here are four names which combined in one production hold such exceptional promise—Miss Farrar—Lasky—"Carmen"—and De Mille.

Recognized as one of the greatest actresses of her generation, Miss Farrar's "Carmen" as revealed last winter in the Metropolitan Opera House, New York, established the prima donna still higher in the esteem of opera lovers. Her characterization was an absolute revelation of power, skill and subtle delineation. Miss Farrar's "Carmen" is now imperishable on the screen.

Cecil B. DeMille, who made this production has absolutely surpassed himself as a producer. Thrilling action, magnificent landscapes, beautiful portraits and well constructed drama make this extraordinary production. Nothing finer in motion pictures ever has been seen.

"THE SIGN OF THE CROSS" AT THE CRESCENT TODAY

"The Sign of the Cross," derived from the symbol which to scores of millions has for many centuries borne so profound a significance, has been filmed by the Famous Players Film Co. with an extravagance of scenic and spectacular effects and a faithfulness to the original settings and atmosphere seldom seen in motion pictures. Everything has been done to give the most sumptuous and lavish production to a play which lends itself admirably to spectacular effects, and the result is a film which rivals in splendor any of the classical productions yet presented to the public.

For many years the original play has fascinated the imagination and swayed the emotions of audiences throughout the civilized world as has no other drama of its type. For the most part, it glows with Titianesque luxuriance of coloring, as befits a fearless picture of life in the Rome of Nero. But this swirling world of intrigue and unbridled luxury covers but a portion of the canvas, and the play also reveals, through its Christian characters, the exquisite sweetness and saintliness and the serenity of unquestioning faith, and it is through a gallery of startling scenes, now splendid with [illegible] sensualities and stately luxury, now beautiful with piteous suffering and illumined with holy hope and love, that Mercia and Marcus, the unfaltering Christian and doubting Pagan, march to their decreed doom.

It would be impossible to overestimate the emotional power of the film. In the role of Marcus Superbus, William Farnum is noble and dignified, both in the tender love passages with Mercia or when defiant to Nero, which upon his enemies and calumniators. The production will undoubtedly be conceded the greatest film classic ever produced in America.

Every day is sundry in Daytona.

BEACH RESIDENT DIES AFTER LONG ILLNESS

MRS. JOSEPHINE ELLIS, LONG A RESIDENT OF DAYTONA BEACH, PASSES AWAY AT HER PENINSULA DRIVE HOME.

After an illness of several months, due to a fall last summer, Mrs. Josephine L. Ellis, a resident of Daytona Beach for many years, died at her late residence on Peninsula Drive, Thursday night, at 9:00 o'clock, at the age of 76 years.

The late Mrs. Ellis came to the beach many years ago and has lived at her home on Peninsula Drive nearly all of that time. She has a large circle of friends and neighbors who will join in mourning her loss.

Funeral services will be held at the house this afternoon at 4:00 o'clock, and are to be conducted by Rev. Brewer T. Boardman, the pastor of the First Baptist church of Seabreeze, of which the late Mrs. Ellis was an ardent and hard-working member. Following the services, the remains will be laid to their final rest in Pinewood cemetery.

During her residence here, Mrs. Ellis was always dearly beloved by a large number of friends, and was ever willing to assist in any good movement in any manner possible.

WAR VETERAN TELLS STORIES OF LINCOLN

About two hundred persons attended the address last night given at the Daytona Beach Methodist church by Judge Stimmel, the last living member of Abraham Lincoln's bodyguard. Mr. Stimmel's entire address was much appreciated by those present as he gave many interesting anecdotes about the great war president and his cabinet. Mr. Stimmel was closely associated with Lincoln for two years, being a sergeant in his immediate bodyguard.

This address was one of the Tourist Club entertainment course numbers, being given during the season by the church, and was indeed an interesting speech.

Mrs. S. E. Cranston and Mrs. C. L. Jenks, of Providence, R. I., are among the recent arrivals at the Seaside Inn.

Obesity Cures.

We are all asking for diets and systems of exercises for reducing the weight, but it must be borne in mind that the reduction of weight must invariably be accompanied by a reduction in strength. This means that the woman who systematically enters upon a dietary, bathing and exercise scheme must give herself over to this entirely, for it will exhaust her strength as it reduces the flesh. The woman who does her own housework or the woman who is in business must not undertake bathing, violent physical exercise or bathing and combine with these her regulation work. Physique and nerves cannot endure the strain. A breakdown is inevitable.

Care of Matting.

Try sewing your new matting with raffia. Dampen and split each strand. This will make a fine seam that will look well on either side. When laying new matting one can prevent ridges and wrinkles if, after putting down as smooth as possible, you will wash with a pail of hot water, to which a cup of salt has been added. Leave quite wet and in drying the matting will shrink into place. The salt toughens it. Wash with the grain of the matting. Never sweep matting with an unmoistened broom, as it will split the fiber, but cover the broom with a soft canton flannel bag and dip in salt water to brighten it.

50 or 600 Feet on the Halifax River back to Peninsula Drive, at $7.00 a front foot.

50 Foot Lots on the Ocean, 500 feet deep for $6.00 a front foot.

BEACH RESIDENT DIES AFTER LONG ILLNESS

MRS. JOSEPHINE ELLIS, LONG A RESIDENT OF DAYTONA BEACH, PASSES AWAY AT HER PENINSULA DRIVE HOME.

After an illness of several months, due to a fall last summer. Mrs. Josephine L. Ellis, a resident of Daytona Beach for many years, died at her late residence on Peninsula Drive, Thursday night, at 9:00 o'clock, at the age of 76 years.

The late Mrs. Ellis came to the beach many years ago and has lived at her home on Peninsula Drive nearly all of that time. She has a large circle of friends and neighbors who will join in mourning her loss.

Funeral services will be held at the house this afternoon at 4:00 o'clock, and are to be conducted by Rev. Brewer T. Boardman, the pastor of the First Baptist church of Seabreeze, of which the late Mrs. Ellis was an ardent and hard-working member. Following the services, the remains will be laid to their final rest in Pinewood cemetery.

During her residence here, Mrs. Ellis was always dearly beloved by a large number of friends, and was ever willing to assist in any good movement in any manner possible.

WAR VETERAN TELLS STORIES OF LINCOLN

About two hundred persons attended the address last night given at the Daytona Beach Methodist church by Judge Stimmel, the last living member of Abraham Lincoln's bodyguard.

Hon. Stimmel's entire address was much appreciated by those present as he gave many interesting ancedotes about the great war president and his cabinet. Mr. Stimmel was closely associated with Lincoln for two years, being a sergeant in his immediate bodyguard.

This address was one of the Tourists' Class entertainment course numbers, being given during the season by this church, and was indeed an interesting speech.

Mrs. R. E. Cranston and Mrs. C. L. Jeneks, of Providence, R. I., are among the recent arrivals at the Seaside Inn.

THE HUDSON Super-Six

Six cylinders is the smallest number of cylinders that will produce continuous power in a gasoline motor.

In size the motor is identical with last year's Hudson Six. Last year's Hudson, at its maximum, developed only 42 horsepower; the Super-Six develops 76 horsepower, an actual increase of 80 per cent. in power without any added size.

The Hudson Super-Six so eliminates vibration that on a testing block, at enormous speed, it hardly shakes a pencil stood ON END. In high motor speed capacity it exceeds by half, the best of former Sixes.

The Hudson Super-Six is equipped with an engine that will attain a speed of sixty miles an hour in 25 seconds from a standing start.

IOWA ASSOCIATION HOLDS A MEETING

IOWANS ENJOY PLEASANT AND INTERESTING MEETING THURSDAY AFTERNOON IN THE CASINO BURGOYNE.

The Iowa association met Thursday afternoon in Casino Burgoyne with a registration of nearly 100. The meeting was called to order by President J. G. Brown, of this city and Marshalltown, Iowa.

The principal address of the afternoon was made by John W. Foster, of Guthrie Center, Iowa, who said in part:

"When you think of Iowa you have visions of corn fields, hogs and cattle, and well you may, because Iowa continues to lead all of the states of the Union in the value of her corn and livestock.

According to the figures recently issued by the government the livestock on Iowa farms on January 1st was worth $451,000,000.00, while Texas with its vast range country ranks second in total value of livestock, which for this year amounts to $438,000,000.00. Illinois ranks third, with a total livestock valuation of $322,000,000.00.

Iowa stands first in the number and value of horses, and Illinois second.

Iowa's hog crop is double in value of that produced in Illinois, her nearest competitor.

Iowa's cattle are worth more dollars than the entire tobacco crop of the United States.

Eggs, which are a sort of by-product on the Iowa farms, annually sell for more money than all the oranges raised in the United States.

The hogs in Iowa exceed in value the total farm products in any one of twenty-seven states in the United States, including dear old Florida.

But why devote further attention to this phase of the subject? Iowa's preeminence in an agricultural way, is conceded, not only in Florida, but world without end.

"Iowa, a natural garden spot, has spent money lavishly to promote all sorts of agriculture. We maintain the best agricultural college in the world and the best equipped agricultural experiment station of any state in the Union. We have devoted almost too much time and attention to this matter.

"But little attention has been devoted to Iowa as a place for people to live. Men make their pile and move to Florida or California to spend their money and enjoy themselves and die. We are just beginning to devote some attention to making Iowa an attractive place to live. The beauties of any country have to be pointed out before the average person sees them. We hear so much of Sunny Italy and Sunny Florida, and the Sunkissed Skies of California, but how many people have ever heard that Iowa has more sunny days than any of these countries? Official weather records show that Florida and Italy have 68 per cent of sunshine while Iowa has 62 per cent. While our climate is rigorous, it is bright and crisp and invigorating, especially to the young and robust. And the reason you have not heard more about the delights of the Iowa climate, and more about "Iowa, The Beautiful Land"; about our singing birds and rippling waters; our bright, fresh, green trees; our waving corn fields, our flowers and fruit, of which we have the very best, in abundance, is simply because we have all been so busy producing wealth that we have not taken time to tell the tale."

At the business session of the association, J. G. Brown was re-elected president. President Brown made the statement that Iowa, on a basis of population, was the richest of all the states with the exception of Nebraska, and its wealth was 60 per cent greater than the average of all the states.

Interesting talks were made by R. M. Long, William Anderson and others, all of which were much enjoyed by the assembled Iowans. The time of the next meeting was left to the executive committee.

THE WEATHER

FOR FLORIDA: Fair today and tomorrow; Saturday, much colder; wave to sweep through north and central portions. Winds strong, northwest.

Optimist Department, Devoted to Cheering Up "The Land of Sunshine."

Get away from this? Get away from this? It's a Ford! Say, can't you all stop pickin' on Fords? Somebody said, the other day, the government was protecting them by law and that's the reason they multiply so blamed rapidly. Well, an open season's coming soon. All Fords without a collar and not on a leash will be shot on sight!

Now, here's some real advice: We're printing it, although we know the married men have reached the point where they can't profit by it, and the unmarried men haven't reached the point where they can appreciate it. And the women—the women—oh? the women are bound to have their own way, anyhow:

KEEP AWAY FROM IT.

Trouble starts from many things—
Starts from war or, lawyers, maybe
Wifey, to you, worry brings,
In the nature of a baby.

You better fare the prison bars,
You better learn to live in jail;
You better kneel to Russian Czars,
Than listen to that awful wail.

You must love to wake at night,
You must have a temper mild,
If you think the world is right,
When you hearken to that child.

You curse the sound that discord rings,
'Tis surely due to Tommy Cat;
You heave your shoe and lots of things,
But, ah! what luck! It is your brat!

And that's the way, to readers, dear,
Oft men and women marry;
And find that life is far too drear,
When cares they have to carry.

So think before you take a wife,
Of matrimony's chores;
For married life is full of strife,
With babes and mothers-in-laws.

Thought and Speech.

In spite of Emerson, consistency is a hobgoblin. Most of us cannot help feeling that what we have said one day we must abide by the next, and this makes us careful. We are brought up from youth to think twice before we speak, and so we do. We think, perhaps, three or four times, and when we have done our thinking we have begun to suspect that we are poor creatures anyway and might better not speak at all, which may be the case, or not.

About Gypsum.

Like limestone, gypsum belongs to the lime-containing groups of minerals, but is a sulphate, while limestone is a carbonate. The process of utilizing gypsum is extremely simple. It is heated until the water is driven off as steam, leaving behind a white powder which has the power of taking up water again and becoming hard. This fundamental principle was well known to the Egyptians and Greeks, although, of course, they could not have been aware of the manifold uses to which modern industry has put the soft, white, powdery rock.

WHELDON'S BODY IS WASHED UP ON BEACH

FINAL CHAPTER SURROUNDING LIFE OF YOUNG MAN DROWNED AT INLET WHILE PLACING A BUOY.

The body of William Wheldon, who was drowned at the Inlet February 19, while placing a government buoy, in company with Cub-t Wright was found on the beach Wednesday evening and taken to New Smyrna. It was prepared for interment and taken to Orange City Thursday by his father, who came here as soon a she received word the body had been found.

The body was found by Ed Brown and Don Douglas, below where Brown's trail comes to the beach, about three miles south of the Atlantic hotel. It was first seen as an object floating in the water some distance out from the beach, and gradually coming to shore with the tide.

As the tide rose the body continued to come nearer the beach and was finally washed ashore at high tide at 7 o'clock in the evening.

The body was in a state of good preservation, considering it had been in the water for nineteen days.

Marked Similarity.

"The bear and killed Scotch Highlander," said F. G. Porter, "with his bare knees looking like horse-radish graters, plunges headlong into the fray to the shrill and shriek of the bagpipes. It is said that the sound of the pipes drives him to frenzy and makes him wild to fight, somewhat similar, no doubt, to the way in which my neighbors phonographs affect me. — Kansas City Star.

King Alfred's Bugle.

The most interesting of all bugles is the famous blowing stone, first used by Alfred the Great to signal his troops on the field of Ashdown. It is in the historic Vale of the White Horse in Berkshire, Eng., and is a mass of sandstone so curiously pierced with holes that when blown it emits a loud, clear call. The sound travels over the green meadows through the woods of the River Ock, echoing among the White Horse hills and down to King Alfred's camp on the southern slope and back to Wayland Smith's cave, where the smith lived, whom no one ever saw, who stood the traveler's horse left at his door.

Sander, secretary of Albany, who is a guest at the Ponce de Leon hotel. Wm. F. Peters, of Medina, Ohio, stopped over in this city today for a short visit with Mrs. Elizabeth Blake McDowell, Mrs. Helen Blake McDowell and Miss Helen McDowell, of Medina, cousins of Mrs. E. M. Condit, who are visiting Mr. and Mrs. Condit at their home at 106 Orange avenue. Mr. Peters is on his way north and came to Daytona from Miami.

Let the Gazette-News follow you to your northern home. It will keep you posted on the doings in Daytona and vicinity during the summer. One dollar will bring to you every week durins next summer, or $1.50 will insure you receiving it for an entire year.

Geo. J. Vande Vord came to Daytona, Thursday, in his car, accompanied by Mr. and Mrs. Jones and Mr. and Mrs. Suloff, all of Mt. Dora. The party will be here for a few days, Mr. Vande Vord dividing his time between this city and New Smyrna. Mr. and Mrs. Jones are known to many Daytonians, having at one time resided here.

Will Gardiner motored over from DeLand this morning and took train here for St. Augustine to join the Stetson University ball team in St. Augustine for a game in that city this afternoon. Mr. Gardiner expects to come to Daytona again tomorrow and remain over until Sunday with his parents, Mr. and Mrs. G. H. Gardiner, at their home on South Ridgewood avenue.

Thought and Speech.

In spite of Emerson, consistency is a hobgoblin. Most of us cannot help feeling that what we have said one day we must abide by the next, and this makes us careful. We are brought up from youth to think twice before we speak, and so we do. We think, perhaps, three or four times; and when we have done our thinking we have begun to suspect that we are poor creatures anyway and might better not speak at all; which may be the case, or not.

About Gypsum.

Like limestone, gypsum belongs to the lime-containing groups of minerals, but is a sulphate, while limestone is a carbonate. The process of utilizing gypsum is extremely simple. It is heated until the water is driven off as steam, leaving behind a white powder which has the power of taking up water again and becoming hard. This fundamental principle was well known to the Egyptians and Greeks, although, of course, they could not have been aware of the manifold uses to which modern ingenuity has put the soft, white, marblelike rock.

WHELDON'S BODY IS WASHED UP ON BEACH

FINAL CHAPTER SURROUNDING LIFE OF YOUNG MAN DROWNED AT INLET WHILE PLACING A BUOY.

The body of William Wheldon, who was drowned at the inlet February 19, while placing a government buoy, in company with Cabot Wright was found on the beach Wednesday evening and taken to New Smyrna. It was prepared for interment and taken to Orange City Thursday by his father, who came here as soon a she received word the body had been found.

The body was found by Ed Brown and Don Douglas, below where Brown's trail comes to the beach, about three miles south of the Atlantic hotel. It was first seen as an object floating in the water some distance out from the beach, and gradually coming to shore with the tide.

As the tide rose the body continued to come nearer the beach and was finally washed ashore at high tide at 7 o'clock in the evening.

The body was in a state of good preservation, considering it had been in the water for nineteen days.

Marked Similarity.

"The braw and kilted Scotch Highlander," said P. G. Pester, "with his bare knees looking like horse-radish graters, plunges headlong into the fray to the skirl and shriek of the bagpipes. It is said that the sound of the pipes drives him to frenzy and makes him wild to fight, somewhat similar, no doubt, to the way in which my neighbors' phonographs affect me."—Kansas City Star.

King Alfred's Bugle.

The most interesting of all bugles is the famous "blowing stone," first used by Alfred the Great to signal his troops on the field of Ashdown. It is in the historic Vale of the White Horse in Berkshire, Eng., and is a mass of sandstone so curiously pierced with holes that when blown it emits a loud, clear call. The sound travels over the green meadows through the woods of the River Ock echoing among the White Horse hills and down to King Alfred's camp on the southern slope and back to Wayland Smith's cave, where the smith lived, whom no one ever saw, who shod the travelers' horses left at his door.

GOVERNOR WHITMAN WIRES GOOD WISHES

President W. C. Short, of the New York asociation is desirous that the members of that organization be made acquainted with the contents of a telegram received this morning by Henry F. Snyder, ex-mayor of Albany, who is a guest at the Prince George hotel. Mr. Short regrets that the message did not arrive in time to be read at the meeting of the association, held Thursday afternoon in the Nautilus Casino, Seabreeze. The message, which was from Governor Whitman, was as follows:

"Please convey to the assembled members of the New York State Association my best wishes.

"CHAS. S. WHITMAN."

Governor Whitman had received information of the meeting which was to have been held today, but was changed to Thursday in order to not conflict with the Elks' parade.

WILBUR BY THE SEA

WILBUR-BY-THE-SEA, March 2.—Undoubtedly the leap year ball, given by the ladies of Wilbur at the club house, last Tuesday evening, represented the high-water mark of the season's social functions.

For weeks the ladies had been preparing for the affair, and their committees had left no stones unturned, searching for everything that could be done to spell the grand word, "Success," that unqualifiedly can be applied to the occasion.

The gentlemen of the town were only guests that night, and if a stranger had dropped into town at about 8 o'clock that evening, he would have wondered why every piazza was occupied by a lone man, walking anxiously up and down, fidgeting like a debutante and peering into the darkness, wondering if his leap year love had forgotten him.

Then to the hall, decorated and trimmed by artists, where amid a bower of green the Prince George orchestra discoursed sweet music.

Mrs. Carrie A. Davis and Mrs. Susie C. Carr, of the committee, introduced the guests to Curtis C. Cook, who has recently entered the colony.

Mr. Cook, a student of Vernon Castle, with Mrs. Mildred Carr Eaton gave several beautiful and exquisite exhibition dances, among which were the Globe Trot, Brazilian Polka, Russian Waltz and Mazurka Russe, which were greatly enjoyed by the audience.

Good judges claimed that these dances bettered any they had seen in New York.

General dancing followed and in a "Lucky Number" dance, the prizes were taken by Harold Whidden and Miss Mae Fellows.

During the intermission an elaborate collation was served by Mrs. Florence E. Bryant, Mrs. Eliza Campbell and Mrs. Jennie S. Theirs, with Mrs. John Carr pouring coffee.

The gentlemen faithfully kept their seats and acted real lady-like, while their escorts looked after their welfare.

Following the refreshments, Miss Marie Williams rendered a beautiful selection on the piano, followed by a bass solo, by Harold Bates, and the evening festivities closed by a beautiful selection on the harp by Miss Alice Ross.

Hon. Fred L. Keller and Mrs. Keller, of Lansing, Mich., are visiting at the home of Mr. and Mrs. F. G. Theirs, on Riverside Drive. Mr. Keller is state superintendent of public instruction of Michigan, and vice president of the National Educational Association.

Milton A. Chandler, of Boston, Mass., is the guest of Prof. Barker's cottage on Oriole avenue. Mr. Chandler is one of the firm of Chandler & Barker, one of the largest hardware concerns in the city of Boston.

Discouraged.

Charles, aged six, had been asking his father and mother for some time for a mudguard for the small bicycle which he rode, but the weather conditions had been such that his parents thought the purchase could be deferred. One evening his mother noticed that he had not said his prayers as usual and asked him why. "Well, mamma," said the lad, "I kept praying for that mudguard and when I found there was nothin' stirrin' I just stopped prayin'."

INFIELD USED FOR FIRST TIME; VERY FAST, SAYS MGR.

The following is a list of the members of the Brooklyn Nationals now in camp: Stengel, outfielder; Appleton, pitcher; Goodbread, pitcher; Mack Wheat, catcher; Stevenson, pitcher, Colwell, pitcher; Miller, outfielder; Hickman, outfielder; Priest, pitcher; Mails, pitcher; Olson, utility man; McCarty, catcher; Dell, pitcher.

Jimmie Johnson, the famous outfielder, has been ordered to report March first, but has not yet arrived.

The hours announced for practice by Manager Robinson, are one and a half hours, from ten in the forenoon and at two-thirty in the afternoon for a couple of hours.

The pitchers were today put through some hot warming up and apparently, some of the men must have been doing some extra practice "behind the barn." Robinson had to call them down. He said they exhibited entirely too much speed for the second day's work-out and were too swift for the recruits. Mails is showing terrific speed and is in excellent condition. He holds forth a glowing promise, according to the trainer. Colwell also looks better than ever before. In fact, all the recruit pitchers are taking hold of the work with a will. The manager is much pleased with the day's work.

It is reported that Miller, outfielder, appears to be a "natural slugger," and is exceptionally fast for a heavy man, but needs to reduce and train hard. Robinson states that Hickman, outfielder, is the fastest runner he has ever seen playing ball. Authorative sources say Hickman has run one hundred yards in less than ten seconds. Manager Robinson stated with a smile, "he looks the part."

The ground is said to be in excellent condition and has proved better than the team expected. The men worked for the first time today on the infield and found it very fast. The outfield is good, too, but still a little sandy.

Ancient St. Andrews.

St. Andrews is the oldest Scotch university, it having been founded in 1411, and, according to an ancient document, "mony excellent and noble clerks war brocht out of sindry countries to be preceptours in it."

THE GERMAN-AMERICAN SOCIETY TO HOLD PICNIC

The German-American society will hold an old-fashioned German picnic at Nordman's grove, Branch Number nine, on Sunday March 12th. It is understood two of Captain Nutting's large motor boats have been engaged for the trip.

The committee on arrangements consists of William Rendsburg, Chas. Tost and C. F. Burgman. A royal good time is promised the party.

Optimistic Thought.

He is the best prophet who makes the best guesses.

Fear to Hear the Cricket.

It is regarded as a death warning in some parts of Germany to hear a cricket sing.

U. S. an Old Nation.

The United States of America is one of the oldest nations on earth. With the exception of England and Russia it is, as a present nation, older than any country in Europe. And alone in the Western world, it has stood for the past 125 years with an unchanged government. Its boundaries have expanded and its constitution has been amended and it has gone through Civil war; but the United States is "ruled" today as it was ruled in 1789; and it is the only Western nation that is.

Worth Knowing.

Inlaid linoleum when first laid should be given a coat of good floor polish made of wax and pure oils free from acids of any nature. This should be well rubbed into the linoleum to fill the pores, then the linoleum should be polished. When necessary to clean use a good soap, which must be free from alkalies, and luke-warm water. Do not use soda or any of the strong soaps or cleansing compounds, which are apt to destroy the finish and color. Some prefer that the inlaid should be polished once each month with a good floor wax, but the soap and water method is believed to be the best.

JOHNNY JONES TO BE HERE SOON

E. A. Kennedy, advance manager for the Johnny J. Jones Exposition Shows is in town making final arrangements for the appearance of his attractions during the week of March 13th.

Mr. Kennedy announced this morning that the Jones Shows on their 1916 basis, comprise an entirely different organization from that which scored such a big hit last season, that they are much larger and include some features which are distinct innovations to the carnival form of amusement.

It is positively assured that the Whip, the latest riding device, which has, heretofore, appeared only at Luna Park, Coney Island, will be with the Jones company when it arrives here. The Whip was the reigning sensation at New York's popular resort last summer and is said to be the most sensational ride ever devised. It is the most costly structure and extensive in size, covering a space one hundred feet long by fifty in breadth. Its introduction to local show-goers is being awaited with more than usual interest and it will, doubtless, be the Mecca of thousands during the Jones Shows' stay in the city.

The genial advance man claims that the organization he represents has had the most profitable early season tour in its history this year and avers that it is due to the fact that all of the attractions are new and original. The Jones company furnished all the midway features at the South Florida Fair and Gasparilla, held recently at Tampa, and were well spoken of there.

Mr. Kennedy will be in the city a few days attending to the promotion of publicity and various business arrangements incidental to the shows' engagement.

Shall Women Propose?

Of course women should propose. It is women who change their entire lives by matrimony; it is women who take on colossal responsibility by matrimony. The woman should surely be allowed to choose the man for whom she feels herself able to work and give. Men propose; men have had it all in their own hands up to now, and if they have married the wrong woman they have only themselves to blame for it. —Women of the World.

Optimistic Thought.

It is a good thing to be good rather than to be conspicuous.

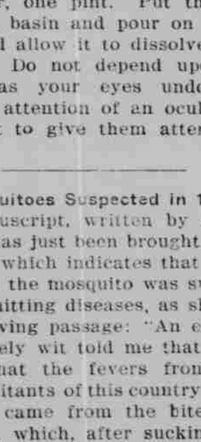

Eye Wash.

If your eyes have a burning feeling when you go home from business at night, bathe with a lotion made as follows: Boric acid, one ounce; boiling water, one pint. Put the boric acid in a basin and pour on the hot water and allow it to dissolve before bottling. Do not depend upon this, though, as your eyes undoubtedly need the attention of an oculist, and it is best to give them attention at once.

Mosquitoes Suspected in 1774.

A manuscript, written by a priest in 1774, has just been brought to light in Paris, which indicates that even at that time the mosquito was suspected of transmitting diseases, as shown by the following passage: "An ecclesiastic of lively wit told me that he suspected that the fevers from which the inhabitants of this country (Tunis) suffered, came from the bite of the mosquito, which, after sucking at an infected cadaver or a poisonous flower, attacked human beings."

Wear Furs of Necessity.

Throughout the cold latitudes of China during the winter the Chinese of all classes wear fur, wool or hair-lined garments. Even the coolies have their sheep or goat skins, and people of the middle and official classes have many sets of garments lined with the richest furs. Their houses are rarely heated to a comfortable temperature, and in consequence they wear their furs both indoors and out.

ILLINOIS PEOPLE SOJOURNING IN TOWN OF DAYTONA BEACH

A copy of the Chenoa Times, of Chenoa, Ill., which has come to the News office through the courtesy of Miss Mildred F. Warner, of Bloomington, Ill., contains the following personal item, under the caption, "Jordans Well Located:"

"A letter received by Mrs. Charles Elliott, from her sister, Mrs. A. D. Jordan, states the family are getting along nicely at Daytona Beach, Florida, where they are spending the winter. Mr. and Mrs. A. D. Jordan and son, Kenneth, and Mr. and Mrs. R. G. Jordan are living in the same house. It has eight rooms. The Jordans have two servants and an automobile. Kenneth has a private tutor. After every automobile ride Mrs. Jordan enjoys a good meal."

In the same paper also appears the following item:

"John E. Wightman went to Chicago Sunday for a visit with his brother, H. E. Wightman. From there he will go to Daytona Beach, Florida, where he will join the Munroes.

Daytona Beach is the most marvelous beach in the world.

Derivation of "Canon."

The word "canon" is Greek for "rule," and is itself derived from "canna," a reed, which was selected by carpenters on account of its straightness. Hence from a measuring rule, it became a figurative rule for measuring and regulating church doctrines.

ENTERTAINED PARTY WITH TRIP TO INLET

W. E. Blodgett entertained a party of friends and acquaintances very pleasantly, Thursday, with an excursion to the Inlet, on the Swastika. The trip to the Inlet was made in the forenoon and the return fairly early in the afternoon. An appetizing dinner was enjoyed on board the Swastika, which was tied up on the west bank of the river while the meal was being prepared. The party included Mrs. A. N. Otis, the Misses Marlitt Bruske, Hildegrade Courtney, Marian Hilliard, Ilsa Conklin, Bessie and Dorothy Brainard, H. K. Brainard, Mr. and Mrs. H. B. Brainard and Lester Badger and Mr. Tease.

Imitation Good and Bad.

The instinct to imitate is, like most other instincts, highly serviceable. But it has to be kept under control. Before we yield to it we ought to be sure that what we imitate is good. One of the most pitiful things in the world is to see people imitating what is unworthy under the impression that such imitation seems creditable.
